

SUMMER ACADEMIES SPONSORSHIP INVITATION

Calling all families, organizations, nonprofits, and businesses!

JOIN US IN EMPOWERING TOMORROW'S STEM LEADERS!

Ingenuity is redesigning its 2026 summer programming for grades 8-12 to ignite curiosity and leadership through immersive STEM experiences and advanced enrichment to prepare the next generation of STEM leaders. This includes a new 4-day rising 8th grade academy, 3-day entering 9th academy, 2-day rising 10th grade academy, a 3-day rising Junior STEM Leadership Summit, and college essay writing workshops for rising seniors.

For four years, federal recovery funds acted as a bridge. Now, it's time for our community to take the lead in sustaining this momentum so that Ingenuity can provide expanded and transformational summer programs at no cost to nearly 300 students in 2026.

Your support is vital!

BENEFITS OF SPONSORSHIP

A unique opportunity for you, your family, or employer to partner with The Ingenuity Project!

- Your sponsorship offsets the cost of student transportation, meals, teacher summer pay, space rental, and program materials for nearly **300** talented Baltimore City STEM students ages 12-18 this summer.
- Your sponsorship will be promoted to our online community of 3,000 cherished stakeholders through our newsletter with a 98% delivery rate and 55% open rate.
- Your sponsorship will be listed online and appear in Ingenuity's 2026 Annual Report.

FEATURE SUMMER PROGRAM: STEM LEADERSHIP SUMMIT

All 81 rising Ingenuity Poly juniors will attend our first STEM Summer Leadership Summit at UMBC in August. Your support will fund the following:

- **Intensive workshops** for juniors entering the Research Practicum, equipping them with technical writing and literature review skills to succeed in professional lab mentorships.
- **Interactive workshops** on coding and emerging technology led by UMBC's math and engineering faculty.
- **STEM Professional and Alumni Panels**, helping students establish a professional network and "college-ready" confidence.
- **Team-building** with classmates to foster community before they begin this important academic year.

Note: Our 6th-grade Summer Academy remains fully funded through our partnership with Baltimore City Public Schools. Your donation directly impacts our new and expanded programs for older scholars.

SUMMER ACADEMIES SPONSORSHIP FORM

Become a Sponsor Today!
Your sponsorship benefits Baltimore City Public School students.

\$500 SUMMER ACADEMIES SPONSOR

Your support of Baltimore City's STEM students underwrites the cost of lunch on campus, transportation, event staffing and materials for these new and revised Summer Academies.

Sponsors will be promoted to our online community of 3,000 cherished stakeholders and appear in Ingenuity's 2026 Annual Report.

Payments and Logos due by May 31, 2026
